

## CSI Adapters: CMX2100 Series

CMX2101 (Replaces CBC199-145)

Single Channel Acceleration

25 Pin adapter with single BNC jack wired for acceleration input. Comparable to CSI A611. For CSI 2120/2130.

CMX2102

Tachometer Input

4 socket AMP adapter to splitter with 1 BNC "F" plug and 1, 1/4" power adapter. 12 inch length. For CSI 404A photo tach.

CMX2103-001M

Headphone Adapter

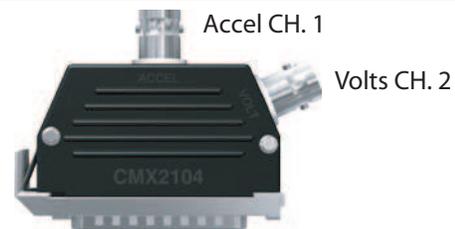

6 pin circular connector to BNC plug, mates Senshear headphones to CSI A649 adapter. 1 meter length. For CSI 2120/2130.

CMX2104 (Replaces CBC199-77)

Voltage OR Acceleration

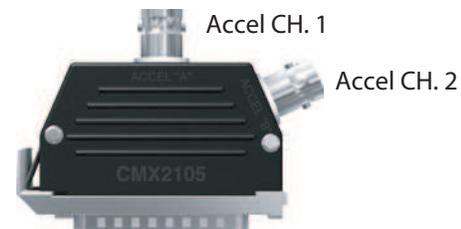

25 Pin adapter. Allows for either one channel voltage or one channel acceleration input. Comparable to CSI A625 adapter. For CSI 2120/2130.

CMX2105 (Replaces CBC199-93)

Acceleration - Channel A/Channel B

25 pin adapter, wired for acceleration with dual BNC outputs, with one wired to channel A and the other wired to channel B. Comparable to AO 6280A. For CSI 2120/2130.

CMX2106 (Replaces CBC199-117)

Acceleration/PeakVue

25 pin adapter, single BNC input / dual output wired for CHAN "A" accel input and CHAN "B" PeakVue. Comparable to CSI A06240A. For CSI 2120.
