

Introduction for the 4th World Congress on Maintenance

1. Background

The World Congress on Maintenance is the global professional conference in the field of plant management, maintenance and remanufacturing with the high standard, large scale and extensive impact, and the important platform to show the worldwide development and achievements of plant engineering, and to enhance the core competitive power. Every two years a congress is held, and the former three sessions have been held in Brazil and Switzerland respectively. In June 2006, the Chinese delegates submitted an application for the 4th World Congress on Maintenance in China. The presidium of the 3rd World Congress on Maintenance was in agreement with the application after their evaluation and voting. This is the first times to hold the international maintenance conference in China.

2. Hosted by

China Association of Plant Engineering (CAPE)

EFNMS

ABRAMAN

3. Organized by

Secretariat of CAPE

Hainan Association of Plant Engineering

National Key Laboratory for Remanufacturing (NKLR)

4. Co-organized by

The Association of Plant Engineering of Beijing, Tianjin, Shanghai, Chongqing, Shanxi, Hunan, Hebei, Shangdong, Jiangsu, Zhejiang, Guangxi, et al.

Beijing Information Science & Technology University

Hainan University

Beijing University of Technology

Wuhan University of Technology

Dongdu International Exhibition (Beijing) Ltd.

Hainan Hailv Meeting Exhibition Service Ltd.

Haikou Sub-department of China Council for the Promotion of International Trade

Haikou International Travel Meeting Exhibition Ltd.

5. Supported by

Hainan Province Government

Development and Reform Office of Hainan Province

Haikou City Government

Hainan Branch of China Council for the Promotion of International Trade

Natural Science Foundation Committee of China

Division of Mechanical and Vehicle Engineering of Chinese Academy of Engineering

Chinese Mechanical Engineering Society

China Construction Machinery Society

Daqing Oilfield Incorporated Company

6. Theme and Aim

Theme: Progress, Innovation and Sustainable Development of Plant Maintenance and Management.

Aim: To reinforce the exchange and cooperation between countries in the field of plant engineering and maintenance. To apply the advanced achievements into the practice of plant engineering. To promote the development of energy-saving and discharge-reducing.

7. Honorary President

Zhang Mei-ying, Vice president of National Committee of the Chinese People's Political Consultative Conference

8. Chairperson and Executive Committee

(1) Chairpersons

Ma Yi, President of CAPE

Guido Walt, Former President of Swiss Maintenance Society

Hans Klemme-Wolff, President of EFNMS

Josebert Eduardo Lobato, President of ABRAMAN

(2) Executive Committee

Director:

Xu Binshi, Vice President of CAPE, Member of Chinese Academy of Engineering, Director of NKLR

Executive Deputy Director:

Chen Yuping, Vice President and Secretary-General of CAPE

Deputy Directors:

Gao Jinji, Member of Chinese Academy of Engineering, Vice Director of Division of Mechanical and Vehicle Engineering of CAE

Zhang Ze, Member of Chinese Academy of Science, Vice President of Beijing University of Technology

Bradley Peterson, President of SMRP of USA

Carlos Oscar Marchio, President of FIM

Kang Yaohong, Vice President of Hainan University

Wang Xiang, Executive Vice Secretary-General of CAPE

Liu Li, Vice Secretary-General of CAPE

Liu Shican, Chief Editor of Chinese Surface Engineering, Director of Construction Machinery Maintenance Committee of CAPE

Zhu Sheng, Professor of NKLR, Vice Director and Secretary-General of Remanufacturing Committee of CAPE

Lan Wenjin, Former Vice Secretary-General of CAPE, Professor-Senior Engineer

Li Baowen, Director of General Productive Maintenance Committee of CAPE, Professor of Guangzhou University

Han Qiushi, Vice President of Beijing Information Science & Technology University

Peter Kohler, Australia

André Rios Cerda, Chile

Tsutomu Nakamura, Japan

Carlos Alva Alfaro, Peru

Joe Amadi-Echendu, South Africa

Mr. Per Schjolberg, Norway

Jerry Kahn, USA

Juan Pedro Maza Sabaleta, Spain

Med Tahiri, Morocco

Zohair Al-Sarraj, Saudi-Arabia

Wang Chengwen, USA

(3) Sub-organization of Executive Committee

1) Academic Committee

Advisors:

Xu Binshi

Gao Jinji

Zhang Ze

Gu Xinyi, Member of Chinese Academy of Engineering

Director:

Chen Yuping

Executive Deputy Director:

Yang Jianwu, Professor and Division Chief of Beijing University of Technology

Deputy Directors:

Ma Shining, Professor of NKLR, Vice President of China Construction Machinery Society

Kang Yaohong

Liu Shican

Li Baowen

Yan Xinping, Vice President of Wuhan University of Technology

Xu Xiaoli, Professor of Beijing Information Science & Technology University

Lan Wenjin

Gao Lixin, Professor of Beijing University of Technology

2) Organization Committee

Honorary Director:

Zhao Lisha, Vice President of Chinese People's Political Consultative Conference Hainan Committee

Advisors:

Hans Klemme-Wolff, President of EFNMS

Josebert Eduardo Lobato, President of ABRAMAN

Riberiro, Secretary-General of ABRAMAN

Director:

Liu Li

Executive Deputy Director:

Zhang Runkun, President of Hainan Association of Plant Engineering

Deputy Directors:

Zhu Sheng

Wei Jinglin, Director of Plant Engineering Service Office of CAPE

Liu Yanyi, Vice President of Hainan Association of Plant Engineering

Liu Gang, Vice President of Hainan Association of Plant Engineering

Li Xiaotian, Vice President of Hainan Economy Daily
